It has been accepted for inclusion in Insecta Mundi by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

## CALL FOR AUTHORS AND SUBSCRIBERS TO "INSECTA MUNDI"

This is the first issue of a new series, *Insecta Mundi* which has been started for the publication of short papers on insect taxonomy. This first issue of the publication is being mailed to subscribers in January, 1985. It contains, as you can see, a variety of articles, including those on Lepidoptera, Coleoptera, Hymenoptera, and Neuroptera. In keeping with its name, *Insects of the World*, the areas covered in these papers include not only the United States, but Mexico, the West Indies, Australia, Europe, and Africa.

We are providing this publishing outlet for systematists publishing on the taxonomy and biology of insects and spiders who are:

- Tired of page charges
- Tired of waiting a year or more for publication
- Tired of writing papers that must please the editor's "peer group" reviewers

Assuming you belong to this group of systematists, why not try publishing in *INSECTA MUNDI*? Send us a paper today and it will be published within 90 days!

We have a book of instructions and sample formats which will help you in the preparation of a paper for the series. Articles do not have to have right margin justification, as are those in this issue, but if possible, it adds to the appearance of the page.

**Please note:** we expect authors to have their paper reviewed by their colleagues before it is submitted to us. These reviewers are to be acknowledged in the paper. Therefore, we consider this publication to have full peer group review and meet the requirements of most institutions as a fully refereed publication.

In addition to formal papers, we will include research notices, requests for study specimens, news of activities of individuals and institutions, and certain book reviews.

More details are given in the masthead (inside front cover) of this issue. If you have any questions not answered in this issue, please write or call one of the following at: FLORIDA STATE COLLECTION OF ARTHROPODS, P.O. BOX 1269, GAINESVILLE, FLORIDA 32602, USA. (Phone 904-372-3505.)

Board of Editors:

Ross H. Arnett, Jr.  
Virendra Gupta  
John B. Heppner  
Lionel A. Stange  
Michael C. Thomas  
Robert E. Woodruff

P.S.: This publication is not supported by any agency or society. We are entirely dependent on subscriptions for its publication. Therefore, we hope you will wish to subscribe, and ask your library to subscribe. The cost per volume (not year) is \$25.00 for approximately 288 text pages. Please send subscription orders and payment to: FLORA & FAUNA PUBLICATIONS, 4300 NW 23rd Avenue, Suite 100, Gainesville, FL 32606, USA.
